

Test passes if the first black "x" is taller and wider than the first orange "x" and shorter than the second orange "X". The second black "X" needs to be the same height as the second orange "X". The black "1" need to also slant to one side.

An orange lowercase letter 'x' with a slightly slanted, rounded appearance.

Three black characters: a lowercase 'x', an uppercase 'X', and a slanted '1'. The lowercase 'x' is shorter and narrower than the uppercase 'X'. The '1' is slanted to the right.
